## Why Istanbul International Hardware Fair?

**Strategic Location:** Turkey's unique geographical advantage provides easy access to manufacturers and buyers from Europe, Asia and the Middle East. This makes this fair a central point for business relations.

**B2B Business Platform:** As Voli Fuar, we are proud of offering the platform that allows information exchange. Our successful organizations and international broadcast communication network dating back years ensure a productive experience for participants.

**Adaptive Communication:** In order to be able to get effective results at our fair, we constitute a correct and sound communication configuration by matching target country & target sector by our specialized team in visitor activities.

**Huge Market Potential:** With a population exceeding 80 million, Turkey is not only a promising market in itself, but also offers the opportunity reaching to a huge market, including neighboring countries.

**Sectoral Network:** Offering opportunity to bring the entire sector together under the same roof, International Istanbul Hardware Fair delivers possibility to access to a wider customer portfolio in its industrial spectrum. The SMEs - which aim to raise production efficiency and competition coming from Turkey and surrounding countries are targeted to visit the fair.

**Increase Your Business:** Hosting the real commercial venue is awaited by the sector; the fair offers a unique and very special opportunity on behalf of both boosting business volume and being suggested new projects. It will be held simultaneously with Turkey's new trade platform, Occupational Health and Safety Fair, in an expanded area of 55 thousand square meters at the Istanbul Expo Center on 20-23 November 2024.

<sup>1</sup> 2020 addresses the outbreak of Covid-19 in Turkey, which was announced just 2 days before the fair held. About 20 international companies already reserved for the fair had to cancel their participation. But despite all these negative effects regarding the fair, the fair was held successfully.

<sup>2</sup> The exhibition achieved a major success both domestically and internationally regarding visitors in a time before the Covid-19 pandemic was over globally.

<sup>3</sup> The exhibition opened the fair season of the hardware & tools industry and held in a new venue for the first time. It even had participants China, the heart of hardware manufacturing is still locked down due to Zero-Covid strategy and where quarantine is still active.
